Price List: gelatin transfer to wood

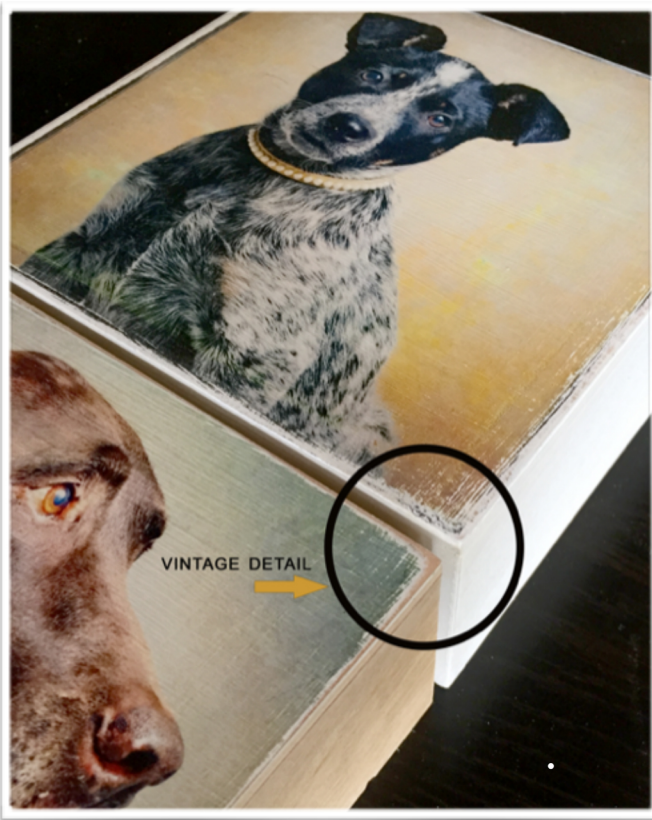

Beginning with the photo, I use textures and colors to create the ideal look. Your image will be printed onto a special film that allows me to transfer the ink to the wood box. The wood is coated with a transfer solution and the film rolled over the top. The film is firmly pushed onto the box using a rubber roller. The inks transfer from the film to the wood after waiting 3 minutes. The film is then peeled off. After drying, the pieces are finished by sanding and distressing and then sealing with a gloss or matte finish.

SIZE

PRICE

- 10" x 10" \$ 85
- 6" x 6" \$ 65

Custom sizes available up to 16" wide.
